

SCCC Ride Re-Engagement Rules

The newly adopted SCCC COVID-19 Rules, set forth below, are a supplement to SCCC's regular Club Rules and are designed with group safety in mind. However, each Member rides at their own risk. The SCCC Board reserves the right to modify these rules (or defer Club rides) based on evolving CDC and State guidance, and Member behavior and feedback.

1. **Group Awareness** - As SCCC, we will continue to follow public health guidance and social distancing. We strive to represent ourselves well in our Community.
2. **Self Monitor** - Any Member who has a fever, flu or COVID like symptoms, or has been in a high exposure situation during the past week (e.g., has been part of a large gathering, traveled outside the Centre Region, etc.) please don't come! Our goal is to protect all club members and our local community during the COVID-19 pandemic.
3. **Rider Check In** - All riders must Check-in for the ride ahead of time. No clipboards or paper forms will be circulating to enhance group safety. Visit the website "[Rider Check In](#)" under the "Ride Info" tab. Non-members or guest riders are only legally allowed to ride two rides with SCCC.
4. **Self Reliance** - Plan ahead to be a self reliant rider: preload route or print a map or cue sheet, bring water, basic tool set, spare tube, snack, air pump, hand sanitizer, etc. to minimize potential need to share items.
5. **Vehicle Parking** - Upon arriving at the ride start location, park in every other spot, when feasible.
6. **Face Masks** - Wear face masks pre ride (upon arriving and while getting "geared up") and post ride while packing gear. Wear a mask if you need or are helping during a mechanical issue. *Wearing face masks is not required while riding, but should be brought along.*
7. **Rider Spacing** - Maintain "social distancing" throughout the ride. Maintain 6 to 10 feet between riders front to back and side to side. When passing try to maintain a safe social distance from other riders. (No extensive drafting or close-in pace lines permitted at this time.) At stop signs, maintain social distancing.
8. **Ride Hygiene** - Act responsibly and safely to avoid others when clearing nose or mouth during the ride. Keep masks, hand sanitizer, handkerchiefs, or tissues at the ready.
9. **Group Sizing** - Within a Speed Group, self organize into smaller "Ride Groups" of 6-8 people. Separate these Ride Groups from each other by staggered start intervals.
10. **Group Leaders** - Each Ride Group needs a ride leader who knows the route and can foster a safe and enjoyable ride for that group. Check the "Ride Leader" checkbox at "Rider Check In" on the website.
